

## EYELETS

### Extra Heavy Duty Eyelets

Extra heavy duty solid electrolytic copper eyelets feature heavier material thickness, larger pads and longer length barrels. All are electro-tin plated to prevent oxidation and corrosion.

### Standard Eyelets

Solid electrolytic copper eyelets are available either tinned plated or in bare copper. Several sizes are offered in this heavy duty terminal and flared ends help with wire insertion. The wire gauge is stamped on the terminal and they meet UL requirements.
