

HI-AMP CIRCUIT BREAKERS

Hi-Amp circuit breakers, with 50 to 150 amp ratings, are available in either a surface mount or panel mount design. The surface mount design comes in three styles: automatic reset, manual reset, and switchable with a manual trip feature. The panel mount design is available in the automatic reset style only. The manual reset and switchable styles feature a unique reset mechanism for visual indication of a tripped condition. The plastic housing is approved for engine compartments or marine bilge area applications.

Typically used for auxiliary and accessory circuits on trucks, buses, recreational vehicles, marine, and construction equipment. Single pole thermal type breakers and automatic breakers are rated up to 30 volts DC maximum. Manual reset breakers are rated up to 48 volts DC maximum. Operating temperature of -25°F to 180°F (-32°C to 82°C). 1/4-28 studs and surface mount style have rubber boots for insulating the ends. Interrupt rating of 3,000 amps at 30 volts DC.

MARINE RATED CIRCUIT BREAKERS

Typically used in DC power systems in marine applications, trucks, buses, RV systems, lift gates, and more. These circuit breakers can be used as a main on/off switch and are external ignition protected and weather-proof. Single pole thermal type breakers are rated up to 48 volts DC. 5/16-18 threaded stud terminals included. Two styles to choose from: panel mount or surface mount.

Amps	Panel Mount Stock No.	Surface Mount Stock No.
50	46890	46870
60	46891	46871
100	46892	46872
120	46893	46873
150	46894	46874
