

SLAP SNAP®

The Slap Snap® is made of lightweight nylon and enables you to wrap your cables 3-5 times faster than with traditional cable ties. It can be applied with one hand and is re-usable. Productivity is enhanced when you need to add another cable to the bundle, as the Slap Snap is easily unclasped without any special tools and there are no sharp edges that can cause injury.

Slap Snap is designed to safeguard electrical wires, computer cables, telephone lines, fiber optics, and industrial usage from automobiles to aircraft.

HOSE CLAMPS

Standard Hose Clamps

This general-purpose hose clamp is available in two materials. The standard style is a stainless steel band and housing with a plated steel screw. The stainless steel style is all stainless, including the screw, and is used in highly corrosive areas. The micro clamps are 5/16" wide while the larger sizes are 1/2" wide. Used for hoses, tubing and fittings.
